### **Theme: Religious Tolerance**

Where did the people in this colony come from and why did they leave their native land?

What was Roger Williams found "guilty" for and why was he declared as a "traitor"?

What do you think about the freedom of religion? Do you think it is right to force something as personal as one's beliefs and thoughts on others, or to deny others the right to have their own opinions?

What are some universal *principles* that people from all religions would be able to use to find common ground? (For example- love, respect, reverence, the golden rule etc)

Do you know anyone of a different faith or culture than yourself?

How can you help build unity in diversity in your own community? (At school, with your friends, with your neighborhood?)

### **Theme: Prejudice**

What is a "savage"?

Were the Indians really savages? Explain why and give examples.

Why did the Europeans (townspeople, magistrate, etc) have these prejudiced views of the Indians?

Are/were all Europeans prejudiced?

In what ways are ALL people similar?
